SKILLS

PROFESSIONAL

- Frontend Web Development
- Styling Frameworks & Component-Based Design
- Single Page Applications (SPA) with React
- Backend & Database Fundamentals
- Version Control, Tools, and Collaboration

EDUCATION

● B.VOC.RENEAWABEL ENERGY

Gandhigram University Dindigul
Energy Studies
2021 - 2024

● COMPUTER SCIENCE (HSE)

St. Mary's Hr. Sec. School, Dindigul
Computer Science
2019 - 2021

● SSLC

St. Mary's Hr. Sec. School, Dindigul
Foundational Studies
2018 - 2019

PROFILE

Hello, I'm Ricky Moses, an aspiring Web Developer with a solid foundation in frontend development, UI implementation, and backend integration. I'm currently gaining hands-on experience by building responsive, user-focused websites using modern web technologies, RESTful APIs, and structured database management.

PROJECTS

● [Portfolio Link](#)

● [React-Projects](#)

Vite React JS:

I built multiple projects within a single React Vite app, using React Router to link them as separate routes. This kept my work organized, scalable, and easy to navigate.

● [To-Do List-Project](#)

To-Do List App - MERN Stack Project:

A full-stack To-Do List application built using the MERN stack (MongoDB, Express.js, React.js, Node.js). This was my first hands-on project integrating both frontend and backend technologies to create a complete CRUD (Create, Read, Update, Delete) workflow.

● [Registration-Form](#)

User Registration System - MERN Stack Project:

As part of my MERN stack journey, I built a more advanced User Registration System to deepen my understanding of real-world web application workflows. This project involved both frontend form handling and backend authentication logic, giving me practical experience with structured data flow, validation, and API communication.

● Declaration:

I hereby declare that the above - mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above - mentioned particulars
